# Business Plan

## 1 Unique Business Idea

ApnaDarzi.pk is an **online custom tailoring platform** that provides stitched Pakistani outfits to customers in Pakistan and abroad. Many Pakistani brands sell unstitched dresses, which creates difficulty for customers especially overseas who cannot find reliable tailors or perfect fitting.

This business solves the problem by **purchasing unstitched dresses from Pakistani brands or using quality fabrics, stitching them according to customer-provided measurements and design preferences, and shipping the final stitched outfit worldwide**. All tailoring and designing is done in Pakistan, ensuring authenticity, affordability, and quality.

## 2 Draft Business Plan

### 2.1 Mission

To make **custom-stitched clothing accessible, affordable, and convenient** by combining traditional Pakistani tailoring with modern online technology.

### 2.2 Vision

To become a **trusted global online tailoring brand**, known for perfect fitting, customization, and customer satisfaction.

### 2.3 Objectives

- To provide high-quality custom stitching services
- To serve customers in Pakistan and overseas (US, UK, etc.)
- To ensure perfect fit through accurate measurement systems
- To build long-term customer trust and loyalty

### 2.4 Target Market

- Pakistani women living abroad
- Customers purchasing unstitched dresses from Pakistani brands
- Fashion-conscious men and women
- Event-based customers (weddings, parties, formal events)

### 2.5 Basic Financial Plan

- **Startup Costs:** Website development, tailoring setup, tools, marketing
- **Operational Costs:** Tailors' salaries, fabric purchasing, packaging, shipping
- **Revenue Sources:** Stitching charges, customization fees, profit on fabric sourcing
- **Expected Outcome:** Gradual profit growth with increased international orders

## 3 Market Research

### 3.1 Surveys

Online surveys were conducted among local and overseas Pakistani customers. **Findings:**

- Customers prefer stitched outfits over unstitched
- Proper fitting is a major concern
- Online ordering is highly preferred

### 3.2 Interviews

Interviews with customers and local tailors revealed:

- High demand for reliable online tailoring
- Customers are willing to pay more for quality stitching
- Overseas customers face difficulty finding skilled tailors

### 3.3 Online Data

Online research shows growing demand for:

- Pakistani fashion abroad
- Custom tailoring services
- Doorstep and international delivery

Competitor analysis shows limited platforms offering **end-to-end tailoring solutions**.

## 4 Business Model

### 4.1 Value Proposition

ApnaDarzi.pk offers **complete customization**, perfect fitting, and online convenience by handling everything from design selection to stitched dress delivery.

### 4.2 Customer Segmentation

- Overseas Pakistani customers
- Working professionals
- Fashion-conscious women
- Event and bridal customers

### 4.3 Cost Structure Map

- Fabric and material costs
- Tailoring and design labor
- Website maintenance
- Marketing and promotion
- Packaging and international shipping

### 4.4 Revenue Scheduling

Revenue is generated through:

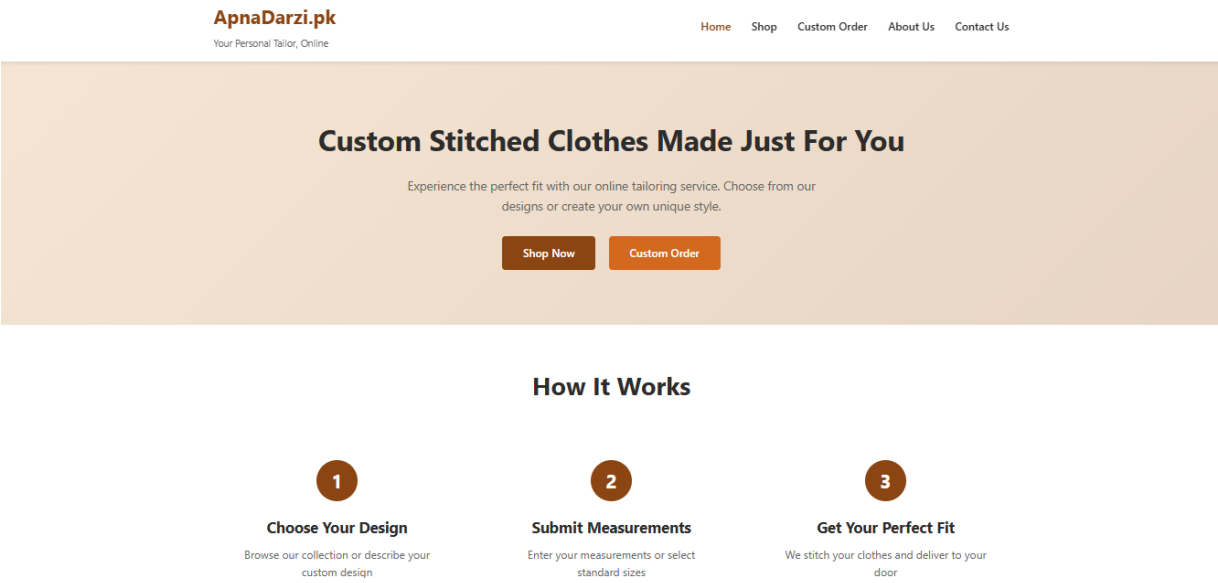
- Stitching services
- Custom design charges
- Fabric sourcing margin

Higher revenue is expected during festive and wedding seasons.

# 5 Prototype

## 5.1 Sample

Sample website pages show customization options, and order forms.



## 5.2 Model

Customer selects design → submits measurements → tailoring in Pakistan → quality check → delivery (local or international).

## 5.3 Digital Prototype

A complete website prototype developed using HTML, CSS, and JavaScript includes:

- Home page
- Shop page
- Custom Order page
- About Us page
- Contact Us page

This prototype demonstrates real customer interaction with the business.
